Director of Contracting  
LT. Colonel, USAF, (RET), United States  
Department of Veteran Affairs  
Network Contracting Office - 22  
4811 Airport Plaza Drive Suite 600  
Long Beach, CA 90815

Dear Mr. Kevin Blanchard,

LCE recently acquired a former hotel located at 545 East Hobsonway, Blythe, CA 92225 and a former middle school located at 401 South 3<sup>rd</sup> Street, Blythe, CA 92225. These properties are abandoned premises located in the heart of Blythe, CA off of the I-10 Interstate freeway. Our plan is to renovate the hotel, while staying true to the original character of the building and the details specific to the period in which it was constructed, as the grant requires. We will open the buildings as a home to homeless Veteran Americans, providing each cohort three months of free shelter and paid training, preparing them for work in manufacturing and packaging of coffee. We have a partnership with Kenergy Coffee & Beverages, providing healthy coffee for all federal locations that run along the I-10 Interstate freeway. After the three month training, the veterans will be equipped with knowledge and experience to find employment with Kenergy or other coffee manufacturers. Those who are interested, will also receive education on an MBA certification of their choice. Training will be provided by Haven University and took place at the transformed part of the middle school, which will be a training school to educate Veterans and qualified candidates. The remaining part of the premises will be transformed into a Kenergy Coffee & Beverages manufacturing factory to provide work and training for homeless Veterans. This program will help house veterans; therefore, reducing homelessness and drug addiction.

We have done our research and are confident that such an establishment would thrive in these locations. The VA will also benefit from a partnership with LCE; especially, due to the slow progress of the Draft Master Plan to provide housing for homeless veterans at the LA VA campus. Our program will be a great benefit to all current and future veterans.

We are pleased to also submit our proposal for a diabetes product that would greatly benefit our veterans with Type 2 Diabetes. Our proposal is built upon proven success results via our partner company Universal Infinite Wellness, Inc.

UIW Inc. formulates, manufactures, and distributes world-wide. Our high quality, natural, herbal, and organic nutraceutical supplements whose primary function is to improve people's health. Our guiding

principle is to develop supplements as an alternative to the medications prescribed by modern medicine, which often have side-effects that require the patient to take an additional prescription to moderate the side-effects from the first drug. Unfortunately, this sometimes continues on to even a third drug needed to mitigate the side effects of the second drug.

UIW's staff of health professionals & researchers have over 100 years combined experience in the formulation, manufacturing of natural health supplements, health sciences training, as well as in marketing, business development and international distribution. Our liposomal based production process results in products that have absorption rates above 90%, and our products do not have the side-effects many people experience when using regular pharmaceutical drugs.

We use only natural, organic, vegan, non-GMO, soy-free, and gluten-free herbal ingredients that have been proven through research, (see the list of published references on our website [www.uiwHealth.com](http://www.uiwHealth.com)). We source these ingredients from US suppliers that get their products from US sources so that we begin with the highest possible quality raw materials, and we only manufacture our products under our direct control here in the United States. Our water goes through a multi-stage filtering process and then through a Reverse Osmosis system.

Our flagship product is called Blood Sugar Reducer #4, and it has lowered A1C levels and blood glucose levels in about 80% of the people who have tried it. In numerous cases, individuals have also reduced their dosages of insulin, metformin, and glipizide. In a small number of people, these medications have been completely eliminated. For most of the approximately 20% whose numbers did not come down, we have noticed through anecdotal reporting that the consumers have noticed that their numbers are much more stable, without the wild swings that can cause diabetics real problems. Please see Enclosure 1 for details on one of our most successful results.

We use commonly available ingredients that are available in a lot of places on the internet and in brick-and-mortar stores, but unlike most formulators who produce capsules and pills, we produce liposomal based liquid products, which help our ingredients pass through the human stomach undamaged, and continue on to the intestines where it is readily absorbed. Numerous medical studies have shown that this gives 90% absorption rate, while the best that pills, capsules, and caplets can do is approximately 15%. We eagerly look forward to helping those who have served our country. We value the sacrifice our armed service members contribute to the nation's security and stand ready to do our part by providing the Blood Sugar Reducer #4 for their health benefits.

Should you desire or require any clarifications, please don't hesitate to contact me at the email or call at the above contact points.

Thank you for your time and consideration.

Sincerely,

Dennis Matthews, CEO

### HOW DOES IT WORK?

**CORDYCEPS & L-THEANINE COFFEE** is an innovative, patent-pending, dietary supplement that is capable of improving a person's well-being with a trio-synergistic effect to enhance three types of energies: (1) the external energy stimulant such as caffeine, (2) the internal energy of ATP, (3) and the mental energy like that of meditation.\*

The first component of **CORDYCEPS & L-THEANINE COFFEE** is caffeine, a short-acting external energy that has been used for thousands of years. Caffeine is a safe stimulant, which can be found in coffee, tea, soft drink, energy-drinks, caffeine supplements, and even chocolate.

The second component of **CORDYCEPS & L-THEANINE COFFEE** is the Cordyceps, which is known to increase the total number of ATPs in our body. Nutrients from foods are converted into energy and stored in ATPs, just as electrical energy is stored in batteries. All living things use the same type of battery-like ATPs to perform thousands of activities ranging from respiration to locomotion. Unfortunately, the total numbers of ATPs available in our body decreases with age. Thus, our cells no longer provide as much ATP energy' so, as time goes on we are less able to use this energy for important functions in the body such as in immune response. Since ATP is the internal energy, having more ATPs (or more batteries), which are able not only to keep us alive but also to give us a good quality of life while maintaining a healthy immune system.

The third component of **CORDYCEPS & L-THEANINE COFFEE** is L-Theanine, an amino acid found in green tea that can produce the mental energy, which is like that of meditation. According to many researches, the brain of a meditator is different from regular people because it is shown to have more alpha-brain waves and GABA (gamma-aminobutyric acid). Alpha-brain waves created by meditation help us to relax and calm our mind but at the same time heighten it to a higher level of razor sharp focus and intense concentration. GABA is the inhibiting neurotransmitters that shut down unnecessary neural activities, just like when you reboot your cell phone o free up the memory by shutting down all other running applications so that your phone can function better. It may take years to practice meditation in order to increase enough alpha-brain waves and GABA to achieve its benefits, including relaxing thoughts and body, accessing creative state, stress reduction by lowering the cortisol level, super-learning ability, enhanced problem solving skills, having positive attitude, stabilizing emotion, and

optimal athletic performance. Fortunately, L-Theanine can increase the alpha-brain waves and GABA level with the benefits similar to meditation much more rapidly.\*

### **CORDYCEPS & L-THEANINE COFFEE FAQs**

**Q. What is CORDYCEPS & L-THEANINE COFFEE?**

**A.** CORDYCEPS & L-THEANINE COFFEE is an innovative, patent-pending, dietary supplement that is capable of improving a person well-being with a trio-synergistic effect to enhance three types of energies: (1) the external energy stimulant such as caffeine, (2) the internal energy of ATP, (3) and the mental energy like that of meditation. \*

**Q. How CORDYCEPS & L-THEANINE COFFEE work?**

**A.** [Link to How Does It Work?](#)

**Q. What is Cordyceps?**

**A.** Cordyceps is a rare and exotic medicinal mushroom used by the Chinese for thousands of years. The earliest record was found during the Tang Dynasty (618AD – 907AD). It was noted as a mystical creature whose existence materialized from a transformation from animal to plant, in the summer, and then again from plant to animal in the winter. Its therapeutic healing property was scientifically recorded in 1757 in the Ben Cao Congxin (New Compilation of Material Medical) by Wu-Yiluo during the Qing Dynasty.

Despite its popularity in the Eastern World, Cordyceps was unknown to the Western World until 1993, when three athletes Wang Junxia, Qu Yunxia, and Zhang Linli broke

five world records for 1500, 3000 and 10000 meter dashes at the National Games in Beijing, China. This phenomenon attracted much speculation and suspicion despite the clean records of three new champions; thus, coach Ma Junren told the reporters that they took Cordyceps. Since the wild form of Cordyceps is rare and expensive, a strain was isolated and cultivated in the lab and distributed commercially worldwide.

We do not use wild Cordyceps, we use organic Cordyceps grown in a safe, controlled environment.

*Q. What is Caffeine?*

*A. Caffeine is a stimulant, which can be found in coffee, tea, soft drinks, energy drinks, caffeine supplements and even chocolate.*

Ninety percent of people in the world use caffeine in one form or another. In the US, 80 percent of adults consume caffeine every day.

The true mechanism of why CORDYCEPS & L-THEANINE COFFEE is so effective is due to its trio-synergistic effect. For example, you may get the benefit of having carbohydrate by just eating a bowl of rice by itself, protein by eating a piece of chicken by itself, and vitamins and fibers by eating a dish of vegetable by itself. However, you would get a synergistic effect of a complete nutritious meal when you eat all three (rice, chicken, and vegetable) together. With a propriety blend and little spice like the salt and pepper, you have not only a nutritious meal but also a delicious one. That is why CORDYCEPS & L-THEANINE COFFEE works so well. For instance, the right amount of L-Theanine and Cordyceps, (which is high in Adenosine, a chemical very similar to caffeine) can balance the effect of caffeine to create the one-of-the-kind energy, that gives you (1) the immediate short-term awaking energy of caffeine without the anxiety, (2) the intermediate-term mediation energy with super focus and creativity of L-Theanine, and (3) the long-acting ATP energy that every single cell in our body needs. \*

CORDYCEPS & L-THEANINE COFFEE only has Cordyceps and L-Theanine for those who can't tolerate caffeine, while CORDYCEPS & L-THEANINE COFFEE has the benefits of the trio-synergistic effect of caffeine, Cordyceps, and L-Theanine.

**Patent Pending:** The patent for this product has been filed with the United States Patent & Trademark Office.

**Effect:** Majority of people will experience the sensation of well-being and simultaneous feelings of being energized but with calmness, increased focus, and stronger concentration. Few people may experience the symptoms of caffeine, which usually diminish after a few days. Few others may feel the immediate effect of drowsiness and spacing out for a few minutes due to the L-Theanine. These symptoms are normal and benign.

To ensure the best quality, we use Suntheanine® brand for L-Theanine. Suntheanine® is licensed by Taiyo International, Inc.

**Dosage:** You can consume 1 sachet in the morning and/or 1 more in the afternoon after lunch.

**Caution:** Do not take this product if you are pregnant. Please consult with your physicians if you have any concerns about your medical problems.

**Q. What is L-Theanine (Suntheanine®)?**

**A.** L-Theanine is an amino acid, found almost exclusively in tea.

We use Suntheanine® which is the trade name for Taiyo's patented pure form of L-Theanine. Suntheanine® is not an extract of green tea, but rather is produced via a patented fermentation process that mimics the natural process in green tea leaves, resulting in a 100% pure L-isomer-theanine.

Human clinical trials have shown Suntheanine® to promote an alert state of relaxation without drowsiness. \*

Additional human clinical research suggests that Suntheanine® may have application in improving the quality of sleep, improving learning performance, heightening mental acuity promoting concentration, reducing negative side effects of caffeine and supporting the immune system. \*

**Q. What is Manganese?**

**A.** Manganese, a mineral element, is an essential nutrient involved in many chemical processes in the body, including, processing of cholesterol, carbohydrates, and protein.

At Kenergy Coffee we believe in power of natural healing for body and mind. Cordyceps & L-Theanine Coffee is formulated by medical and researchers in U.S.A. and is an innovative, patent-pending, dietary supplement that is capable of improving a person well-being with trio-synergistic effect to enhance physical and mental energy.

### WHAT IS CORDYCEPS AND L-THEANINE?

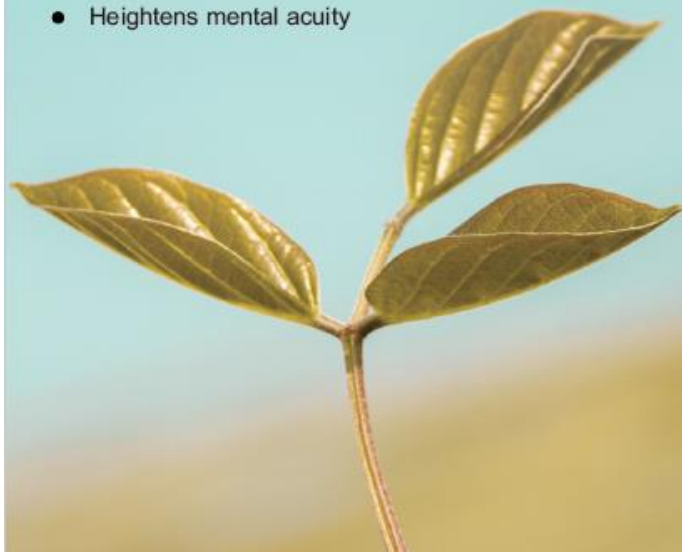

Cordyceps Sinesis is a parasitic fungi that grow inside the caterpillar. It is mainly found at high elevations in Tibet and the Chinese provinces of Sichuan, Yunnan, Qinghai and Gansu. The fungi are hand-collected and used in Traditional Chinese Medicine for centuries to treat fatigue, sickness, kidney disease and low sex drive. At Kenergy Coffee, we do not use wild Cordyceps and instead we use Organic Cordyceps grown in a safe, controlled environment.

L-Theanine is an amino acid found in green tea and used for treating anxiety and high blood pressure, preventing Alzheimer's Disease and making cancer drugs more effective.

### BENEFITS OF CORDYCEPS AND L-THEANINE COFFEE

- Supports stress reduction
- Promotes relaxation without drowsiness
- Promotes learning performance and Concentration
- Promotes immune support
- Heightens mental acuity

## WHAT IS SPECIALTY COFFEE?

Specialty coffee makes a small percentage of the world production. It is dedication of the people who have made it their life's work to continually make quality their highest priority.

This is not the work of only one person in the life cycle of a coffee bean; specialty can only occur when all of those involved in the coffee value chain work in harmony and maintain a keen focus on standards and excellence from start to finish.

This is no easy accomplishment, and yet because of these dedicated professionals, we are able to bring you the finest coffee in the world.

## Meeting with NASA

*From right to left, Ms. Esther Vera, Mr. David Brock and Mr. Can Tang*

On July 16, 2019 coinciding with the 50th Anniversary of NASA, we had a meeting with Mr. David Brock who is a respectful senior at NASA specialist in MSFC. After learning about the benefits of our product and tasting our coffee, Mr. Brock was so impressed that he endorsed our Kenenergy Coffee products.

Below is an email sent by his assistant, Ms. Esther Veras to all major NASA vendors, recommending our product.

FYI:  
On behalf of David Brock at the MSFC Office of Small Business, here is a link to a Product Cut Sheet from KISIME, a small business out of California: [https://drive.google.com/open?id=155FC\\_ga3P0ew62763yvh4Fg2N0ETL3y](https://drive.google.com/open?id=155FC_ga3P0ew62763yvh4Fg2N0ETL3y)

They are the makers and distributor of Kenenergy Coffee & Beverages.  
We've met with them and had an opportunity to sample some of their products. They are very good and supposedly have many health benefits.  
Feel free to check out their product sheet for more information and reach out to them if your company is interested.

Respectfully,

**Esther Veras**

Thursday, August 8, 2019

Dear Mr. Brock:

Please accept my deep appreciation and gratitude for endorsing Kenenergy Coffee and having Esther email the endorsement to all your primary vendors and subcontractors.

When I saw the endorsement sent by Esther, it was one of the happiest moments in my life. Because being a respectful senior NASA specialist in MSFC office of small business and by endorsing our product, SeaChildren.org has a higher chance of searching for hundreds of thousands of missing children, including my poor daughter.

Again, please accept millions of thanks from me and my associates for giving us the opportunity to present our *healthy energy coffee* to NASA and its vendors. We will provide the highest quality product which your endorsement deserves.

God Bless and Respectfully Yours,

**Can Tang**

# DOUBLE SHOT INSTANT TOFFEE CAPPUCCINO MIX ENHANCED WITH CORDYCEPS AND L-THEANINE

## PRODUCT DESCRIPTION

### SERVING SIZE PER BAG

Each 340 gram bag of Double Shot Instant Toffee Cappuccino Mix makes about 17 (8 oz) servings.

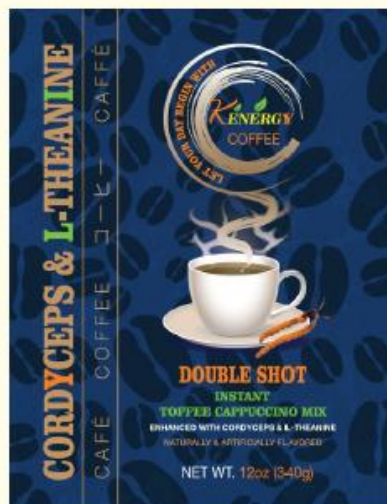

### INGREDIENTS:

SUGAR, NON DAIRY CREAMER (CORN SYRUP SOLIDS, PALM OIL, MONO-AND DIGLYCERIDES, DIPOTASSIUM PHOSPHATE, SODIUM CASEINATE (A MILK DERIVATIVE), CONTAINS LESS THAN 2% OF SILICON DIOXIDE, ARTIFICIAL COLORS, SODIUM STEROYL LACTYLATE, NATURAL AND ARTIFICIAL FLAVORS.), WHEY, CONTAINS LESS THAN 2% OF ARTIFICIAL COLOR, CELLULOSE GUM, COCOA PROCESSED WITH ALKALI, INSTANT COFFEE, NATURAL AND ARTIFICIAL FLAVOR, SALT, SILICON DIOXIDE, XANTHAN GUM, CORDYCEPS, L-THEANINE.

Contains Milk. Produced on equipment that processes soy.

### Mixing Directions By The Cup

- In a mug, add about 4 teaspoons (20g) of Instant Toffee Cappuccino Mix.
- Stir in 8 oz. of hot water. Mix well until dissolved.
- For a creamier cappuccino, mix with hot milk instead of water.

## PROPOSAL SUBMISSION ENCLOSURE 10

### Case Study 2019.08.09 with Direct Contact Info

***This Veteran is a retired US Army Special Forces Operator, aged 59.***

On August 9<sup>th</sup>, we supplied his wife with several bottles of our Blood Sugar Reducer #4, and at that time his glucose level was measured at 599, and the nerve pain in his feet was so bad that he was planning to have his feet amputated.

During the next month, as shown by the attached photographs, his blood glucose readings have dropped, and so has the pain in his feet.

On September 11<sup>th</sup> his reading was 103, and his wife had informed us that his pain has been reduced to the point where he is now walking again, and has told his doctors that he wants to keep his feet.

On September 22<sup>nd</sup> his reading had dropped to 61, and we advised him to contact his regular doctor to discuss his medication.

The veteran does NOT want his medical information, name, or image used in any type of advertising, but he is more than happy to speak with anyone in the Veterans Administration that wishes to have this information confirmed. He would like to help get the information about this supplement to others that are suffering the same way he was.

To contact him you need to first reach his wife at either 408-896-5349 or [SuzanneKwong88@gmail.com](mailto:SuzanneKwong88@gmail.com). She will then provide time(s) and a phone number to speak directly with him. Her first name is Suzanne, and his first name is Gari.

## Examples of Plant or Natural Origins of Pharmaceutical Drugs

At UIW, Inc., we believe in the use of "natural, herbal, plant sources" which have been scientifically researched and documented in [pubmed.com](http://pubmed.com), the clearing house of published research papers respected worldwide. Here are just a few of the well-known drugs in use today with plant or natural origins.

Generic Name	Classification	Origin	Brand Name
Aspirin, acetyl salicylic acid or ASA	Analgesic, Anti-inflammatory agent	Bark from the white willow tree	Ecotrin, Bayer, Aspergum
Qualaquin or Quinine	Anti-malarial agent	Cinchona calisaya tree	Quinine, Quinalaquin
Penicillin	Antibiotic	Mold of P.chrysogenum	Pen-G, ampicillin, amox
Digoxin	Heart medication	Foxglove, digitalis lanata	Lanoxin
Paclitaxel	Chemotherapy	Bark from Pacific yew tree	Taxol, Onxal
Vincristine, Vinblastine	Chemotherapy	Madagascar periwinkle	Alkaban, Velban
Lysergic Acid Diethylamide	Psychoactive, Hallucinogen	Fungal ergot alkaloid	LSD

## BLOOD SUGAR REDUCER™ INGREDIENTS\*\*

- Cinnamon Bark: a potent blood sugar regulator and anti-oxidant
- **Bitter Melon**: used in Traditional Chinese medicine for blood sugar control
- Milk Thistle: anti-inflammatory and anti-oxidant, as well as cholesterol reduction
- Moringa: helps to lower blood sugar levels, loaded with Vitamins A, B2, B6 and C
- Ginger Root: can help reduce A1C levels, blood pressure, nausea, inflammation & cholesterol
- **Fenugreek**: slows absorption of sugars in the stomach, lowers blood pressure & blood sugar
- Astragalus: lowers blood sugar levels, anti-oxidant effects and stimulates immune system
- **Panax Notoginseng**: hypoglycemic, anti-obesity, anti-inflammatory properties
- **\*Banaba Leaf\***: aka, Queen's Flower, can help "reverse diabetes" by improving insulin sensitivity, as well as weight reduction, lowers triglycerides, improved cellular uptake of glucose, powerful anti-oxidant effects
- **Magnesium**: helps to metabolize blood sugar; most important mineral for diabetics
- **Vitamin D3**: helps to reduce insulin resistance

\*\* all these ingredients are approved by the USP (United States Pharmacopeia)

## UIW'S PROPRIETARY LIPOSOMAL NANOTECH PROCESS\*

\*The proprietary formulation of our **liquid supplement outperforms** the hundreds of other blood sugar reducing products being sold on the market, based upon our significant absorption (over 90%) vs tablets and capsules (10% -15%)

## COMPETITION vs UIW, Inc.

The vast majority of blood sugar reducing products in the market use regular gelatin capsules or coated tablets, which are easily destroyed by stomach acids prior to absorption in the GI tract. However, with our **advanced nanotech liposomal** method of production, we can greatly **increase absorption to over 90%** vs 15% from ordinary oral tablets and capsules. See the research article:

### *Abstract*

*"Liposomes are delivery vehicles for transporting substances into the body effectively via facilitating absorption directly in the mouth or by preventing breakdown by stomach acid. Since the 1970s, liposomes have been investigated as potential drug delivery systems because of their biocompatibility and ability to incorporate both hydrophilic and hydrophobic therapeutic agents. Despite early promise, it was decades later, in the late 1990s to the present, that liposome technologies could create successful commercial products. Oral deliveries are recently emerging as availability of quality phospholipids and reliable homogenization and sizing equipment have become routinely available. Nutritional industry use of liposomes will grow rapidly in the next 5-10 y. High-quality products with more complex mixtures of pure compounds and complex botanical mixtures will offer clinicians less-invasive options for dosing and delivery of these actives."*

## A Comparison of Healthy Beta Cells vs Damaged Beta Cells in the Pancreas

Healthy Beta cells produce Insulin in our Pancreas. Poor diets loaded with HFCS, fast foods, excess consumption of carbohydrates, and overuse of Insulin will lead to damage of these Beta cells which, will then lead to long-term complications of Type 2 Diabetes.

Healthy, Beta Cells

Unhealthy, damaged Beta Cells

## Our Solution to the Problem of High Blood Sugar

Our Goals at UIW, Inc. are to help individuals “lower their blood glucose levels” and weight reduction, naturally, and eventually reduce the use of Insulin and other oral hypoglycemic drugs, under the supervision and professional guidance of their health practitioner.

**Disclaimer:** Our products are NOT evaluated nor approved by the FDA. This product is NOT intended to diagnose, treat, cure, or prevent any disease. Individual results may vary with use, and reduction of your blood sugar is NOT guaranteed.

• **Loading Dose of Blood Sugar Reducer™:** Use 3 teaspoonfuls (15ml) **twice daily**, 30 minutes before eating, until you notice a reduction in your blood sugar levels of at least 30%. **It is IMPORTANT NOT TO STOP OR REDUCE the dosing any diabetic medications** until you consult your physician. You may, however, reduce the dose of the BSR™ to 1 teaspoonful (5ml) twice daily, only **after** you consistently see your blood sugar levels drop at least 30% or more.

**We recommend you hold the liquid in your mouth for at least 30 seconds before swallowing for maximum absorption. It's also important to test your blood sugar daily at the same time each day and record the results in a notebook.**

## “Intermittent Fasting Diet Plan”

by Dr. Yoshinori Ohsumi <https://youtu.be/gl8k2ncIQMc>

We recommend everyone who tries the Blood Sugar Reducer™ simultaneously do the “16/8 Fasting Diet Plan” as recommended by this Nobel Prize winning physiologist.

**THE BENEFITS OF THE 16/8 PLAN AUTOPHAGY:** a natural method of “recycling one’s cellular debris, bacteria, viruses, etc. by fasting 16 hours per day”. i.e. eating only within an 8 hour window, and letting your body rest the other 16 hours. This also allows the Beta cells in your pancreas to rest, heal and recuperate.

## SAMPLING of REAL TESTIMONIALS

Chanh from Oakland: “Your Blood Sugar Reducer is simply amazing: I have been using insulin daily now for the past 8 years with average readings of 160 to 170. After only 10 days of trying your supplement, my readings are between 110 to 120! I really hope it will continue to come down more, and I will be sharing these numbers with my doctor. By the way, I am 68 yr old also”

Peter N. “I was diagnosed with type 2 diabetes over 10 years ago, and I tried some other brand of products; Blood Sugar Reducer really works! In less than one month, my A1C dropped from 8.9 to 5.5. Even my doctor was amazed with my fast results, plus I am no longer using any more prescription drugs to control my blood sugar”

Nancy L. “At my young age of 90 yrs old, and on insulin to boot, I was skeptical at first to try your product..now I am so delighted to say that my readings dropped from 230 down to the low 100s and would you believe in less than one week! I thank God everyday for my friend who told me about your wonderful supplement and my doctor just shakes his head, because he can’t accept my results”

Tony W. “My blood sugar readings dropped almost 40% after only 10 days of this amazing supplement! I was using 10 cc insulin twice a day, and now my doctor took me off insulin completely...my average blood sugar reading is now 100. thanks UIW!”

Kevin V. “I’m 19 years old, and after trying your product only 2 days, my blood sugar went from 128 down to 95; amazing stuff, keep up the good work!”

Claire J. “I am so happy to report that my blood sugar has dropped from 170 down to 120 after using your product for 7 days. I am in my 60’s and now have a new lease on life, thanks to your wonderful product.”

\*Note: UIW has compiled Test Data from over 400 individuals to date with over 80% showing marked improvement

## PRODUCT TESTING\*

UIW, INC. has been testing the Blood Sugar Reducer™ with individuals, in clinics with doctors who monitor their patients, as well as with doctors internationally. The results have been overwhelmingly positive, with approximately **75% to 80%** of the subjects reporting a reduction in blood sugar ranging from **15% or more** within the first week. Many subjects have since **reduced** their use of either Insulin or the metformin/glipizide combinations after consulting with their health care providers, while continuing on maintenance dosing with the BSR™.

(For specific details of our patient data tests, please contact us directly at our website at [info.uiwhealth.com](http://info.uiwhealth.com)) UIW, Inc. complies with HIPAA Guidelines of patient confidentiality.

Again, we highly recommend all individuals who try our product to incorporate the "16/8 Fasting Program" alongside with using our supplement for best results.

\*UIW, Inc. maintains a database of test results in compliance with HIPAA regulations, available upon written request with a signed NDA
